20 mph speed limit outside Cliffe Primary School

North Yorkshire Council Highways are now consulting on reducing the speed limit which it is hoped will be implemented in the near future.

Pedestrian Crossing A63 Cliffe

Councillor Arthur advised that North Yorkshire Council Highways will be conducting a feasibility survey in the first instance to establish if the speed limit can be reduced to 30mph to allow for the installation of a pedestrian crossing which would cost in the region of £70,000.

It was noted that if the crossing is permitted Highways would be looking for a contribution from the Mayor's Office.

It was also noted that **Councillor Arthur** is investigating the possibility of resurrecting a local bus service and requesting a contribution from all the Parish Councils along the route which the Parish Council agreed to support in principle.

25/304 Highways:-

The Chairman met with Gary Lumb (Highways) on Friday 28th November 2025 and the following was discussed: -

* Footpath - Highways have applied for a 'Local Transport Grant' to improve the footpaths. There is a good chance that this will be granted and done in 2026. The footpath from Osgodby will be widened to up to 2.5m for a shared footpath & cycleway all the way to Hemingbrough. A new footpath from Cliffe to Cliffe Common is also being considered as a part of this.

* Speed limits - The Chairman requested speed limit reductions be considered in the following three areas:

* 40mph through Cliffe Common

* 40 mph through Lund (A63)

* 30mph through Lund village itself (Lund Lane)

There is a County-wide speed limit review being conducted over the next two years by the traffic engineering team.

These areas will definitely be considered as a part of that review. However, as they have been highlighted by the Parish Council, he may be able to get them reviewed independently of the overall review without having to wait.

However, just because they will be reviewed does not mean that the speed limits will be reduced - that will depend on the review findings etc.

* Speed Camera signs on York Road - Chairman explained the history and statement made by Jo Coles (Deputy Mayor of York and North Yorkshire and Police, Fire and Crime Commissioner) regarding installation of speed camera

signs on York Road. Highways stated that this would only be possible if permission was granted by a John Hunter. Highways will investigate.

North Yorkshire Councillor K Arthur agreed to ask Jo Coles to chase this up with John Hunter.

* Signage at North end of York Road - Highways confirmed that the size of the village entrance signs were the correct standard for the recently installed gateway.

* Parking at junction of Oxen Lane and York Road. Many photos of this dangerous parking close to the junction were shown, with the chairman explaining the recent history of the issue, and the number of near misses which have occurred due to the vision obstruction caused by these vehicles. Also the obstruction to farm vehicles when the parking is within the narrow entrance to Oxen Lane. Chairman has sent an explanatory email to Highways along with the photographs, which will be included in consideration of double-yellow line markings at the junction.

* Vehicles exceeding 7.5t weight limit along York Road. Highways confirmed that all correct signage is in place at the Southern entrance of York Road, along the A63 in both directions prior to York Road Junction, at Blackwood Crossroads and also opposite the exit of Whitemoor business park. He advised that any official complaints/policing of 7.5t weight limits is done by trading standards, not the police.

* Road surfaces

* A63 through the village - this is on the schemes list which has had funding requested.

* Menthorne Lane from North Duffield to Woodhall Lane - this was resurfaced a couple of years ago, but it has faults and all needs re-doing. This will be done beginning the 15th January 2026.

* Double yellow lines opposite Cherry Tree Stores - this has been considered by Highways and not viewed as an issue but will keep monitoring.

* Highways confirmed that they will be conducting a speed survey along the A63 through the village as part of the study for feasibility of a pedestrian crossing.
