“Lund Lane is a Cat 4b on the network hierarchy, a rural unclassified road and unfortunately there is currently no funding in the budget for highway improvements.

To clarify the Council as the highway authority have a statutory duty for maintaining the existing network with only a desire to improve which passing places comes under the umbrella of.

Having checked the mapping system there are areas where there is insufficient verge, carriageway width to accommodate passing places due to private ownership or a drain, roadside ditch so it is expected to not be viable even if 3rd party funding was identified.
